Renewal of single-server and 3-server pack licenses

Upgrades include both 64-bit and 32-bit versions

Existing version: Web / Win & .NET Linux

Load balancing, backup, testing, and development servers all count as additional servers for licensing purposes.

Renew ____ 1 or ____ 2 existing single-server licenses @ \$350 each

Technical support on single-server licenses now covers the dtSearch Web with Spider application only. Technical support does not cover C++, Java, .NET, COM and other developer APIs. Note: this change affects single-server licenses only; 3-server and larger dtSearch Web/Engine licenses will continue to include support covering the developer APIs.

Expand (and renew) ____ an existing single-server license to a 3-server pack @ \$1,501

Expand (and renew) ____ an existing pair of single-server licenses to a 3-server pack @ \$999

For customers who already have a 3-server-pack or larger license:

Renew ____ existing 3-server-pack licenses @ \$875 each

Renew ____ 4-servers @ \$1,167

Renew ____ 5-servers @ \$1,459

Add ____ additional servers @ \$833 each

____ Contact me about expanding my license to royalty-free or bulk per server

Renewal of "Publish 250" license

(for portable media running in an individual usage capacity only, and not from a shared-access server such as IIS)

Renew ____ previously-purchased licenses providing "search-only" functionality (i.e. without giving end-users indexing ability) containing a single content only for up to 250 CD, DVD, and other portable media users @ \$875 each

Renew ____ previously-purchased Special Web "Combo" licenses (up to 250 portable media users, as described above, plus a single-server dtSearch Web with Spider) @ \$999 each

____ Contact me about expanding my license.

Please add 6% sales tax if in Maryland, or 7.6% sales tax if in Missouri.
