Server-Based License Renewals

Covers 64-bit and 32-bit versions

Existing server-based license:

- Web with Spider
 Engine for Win & .NET
 Engine for Linux

Server definition: license covers usage in a single organization. Each physical machine, including load balancing, backup, testing and development machines, counts as a "server" for licensing. In a cloud-based environment like Microsoft Azure, each instance counts as a "server" for licensing.

Support: technical support for single-server licenses covers the dtSearch Web with Spider application only, and not C++, Java, COM, .NET and other developer APIs. **Only 3-server and larger dtSearch Engine licenses include developer API support.**

- ◆ Renew _____ existing dtSearch Web with Spider single-server license(s) @ \$350 each
- ◆ Expand (and renew) _____ existing single-server license to a 3-server pack @ \$1,501
- ◆ Expand (and renew) _____ existing pair of single-server licenses to a 3-server pack @ \$999

For customers with licenses covering 3 or more servers:

- ◆ Renew _____ existing 3-server-pack @ \$875 for each 3-server-pack
- ◆ Renew _____ existing 4 or more server licenses @ \$291.66 per server

Along with renewing, to add more servers to an existing 3 or more server license:

- ◆ Expand existing 3 or more server license to add _____ additional servers @ \$833 each
Note: please also separately renew the underlying license as set forth above.

- Contact me to expand my license to royalty-free or bulk per server, or to add an additional platform to my license.

Please complete ordering information on page 3

Publish (portable media)	

Renewal of "Publish 250" licenses

"Publish 250": covers use of dtSearch Publish to create up to 250 "search-only" (without end-user indexing) portable media of **identical content**, distributable to up to 250 total users.

- All portable media copies must contain the same identical content under this option. To generate portable media with different content for different clients or customers, please see option below.
- The "search-only" portable media may run in an individual-usage capacity only, and not from a shared-access server such as IIS.
- This license includes a single user license of dtSearch Desktop for index building; additional copies may be separately licensed.
- ◆ Renew _____ existing "Publish 250" license(s) @ \$875 each
- ◆ Renew _____ existing Special Web "Combo" (covering "Publish 250" plus one server dtSearch Web with Spider) license(s) @ \$999 each

Renewal of dtSearch Publish "Annual Service Bureau" licenses

(or)

Upgrade to dtSearch Publish "Annual Service Bureau" licenses for existing "Publish 250" customers

"Annual Service Bureau": is a \$3,500 **annual license** covering **one year** of "search only" (without end-user indexing) portable media publishing from **one location**, with **portable media content as set forth below**.

- The content must fall into one of the following categories: (i) confidential e-discovery or forensically retrieved data; (ii) confidential business transaction documents; (iii) data that Licensee has OCR'ed as a "service bureau" for Licensee's clients; (iv) subject to written approval by sales@dtsearch.com, other similarly narrow topics (oil rig specifications, cardiovascular information, airline regulations, etc.).
- Portable media mastering must occur at a single physical location.
- The "search-only" portable media may run in an individual-usage capacity only, and not from a shared-access server.
- An annual license renewal is required to cover usage beyond the initial year's period.
- This license includes a single user license of dtSearch Desktop for index building; additional copies may be separately licensed.
- ◆ Extend (or upgrade to) _____ "Annual Service Bureau" licenses covering one year @ \$3,500 each

Other licensing options also available. Please contact dtSearch for details.
